

Membership of Understanding between Bayan College and ICEM College, Oman

(Tuesday 23rd May 2018) Bayan College (Oman) and International College of Engineering and Management (Oman) has agreed to develop a Membership of Understanding between both the institutions. Dr. Nader Samy represented Bayan College and Professor Ahmad Jamrah (Dean) served ICEM College, Oman. Both institutions aim to enhance their complementary strengths to jointly establish an awareness program in the college, and to nurture the skills and basic requirements of students and staff for a civilized society.

The Sustainable Development Program, initiated by Bayan College along with the technical expertise by the staff and students from ICEM institution aims to establish an informed society and find solution to crisis management. The liaison between both the institution promises to develop student's involvement with the community.

Bayan College has long made development recommendations for the awareness programs and is in the process of optimizing the soundness of staff and student's development. The student affairs department for both the institutions are in the process of formulating new plans and strategies for achieving set goals. Ms. Nahid (Student Affairs, Bayan College) and Mr. Ali Said Al Toobi (Head- Student Affairs, ICEM) plans to host various activities in the year 2018. This will be

the second event exchanged between Bayan College and ICEM. After the Symposium conducted by Bayan College on “the role of technology and media”, the college initiated its initial step towards “Fire and Safety Training” at ICEM College.

From the Bayan College, a team of 8 students accompanied by the students affair, reported at ICEM College on 5th July 2018, 9:00 AM. The agenda was to provide an orientation program on fire and safety for the staff and students.

The expertise exchange will be in the field of fire and safety training for staff and students, media management, social awareness campaigns etc. The signing of the Membership of Understanding (MoU) signifies the launching of the new program along with promising events for the future.
