YEMEN.. WHAT'S NEXT!?

Yemeni children inspect the wreckage of their destroyed house . (AL-Jazeera.com)

A Yemeni girl shows signs of acute malnutrition on her skinny body. (RT.com)

After three years of war and destruction in everything regarding to human and land, in fact, now we are about to enter the fourth year, when will the time be ripe for the world to turn to the disaster that is happening there?. There are children, women, old and sick people are dying there. Every day the reports and news says nothing new but the horrible increase in the number of the injures and the dead. the latest research clearly says that Yemen is moving towards the destruction. Some experts describe the situation there as much worse than the struggle between the Sunnah and Sheea'a. All the indicators says that it will not take more than few months and the country will turn to be no longer save to live in. It's clear to everyone that there is no single good thing in war. There is nothing but blood, dead bodies, destruction, diseases and waste of the natural wealth of the country. During the war, everything stop except for the shot and destroyed at every level. Wars have

an endless list of negative and horrible results. In this article, we will be spotting light on some of the horrible things that comes as results of wars. First of all, wars kill and injure large numbers of innocent people. Millions of people have no fault in the wars in their countries. Wars are the first reason to disrupt the education process in the country. How many people lost their future and education because of wars and destruction. Wars destroy schools and educational institutions, and this is why the educational process ends for many people who are ambitious and eager to learn. With many dead and rotting bodies, disease and epidemics are rampant. Wars caused severe shortages of food, health and education services. Recent statistics indicate that children and women in particular are the most affected by this vicious war. In the end, wars are disgusting and I think that the entire world must take firm action

on the innocent in Yemen. The people are innocent of political conflicts and personal problems between tribes and clans. It is not fair for the government to engage the innocent people in such serious and serious conflicts that do nothing but ruin and ruin the country and its natural resources. Yemeni people seek human rights organizations, UNICEF and the United Nations. They say they entered Yemen to liberate it and restore the rights of the stolen people, but everything became clear that Yemen is bleeding, Yemen is crying out, happy Yemen is no longer happy anymore. Millions of Yemenis have become displaced and homeless. People are scattered all over the world, homeless and without land. Yemen is going through the biggest crisis known to the world at all levels. There is a food, health, educational and humanitarian crisis at all levels. The entire world is responsible for Yemen's disaster. All

countries must participate in solving the Yemeni crisis. First and foremost, the Yemeni government and tribes must resolve their conflict. Let us hope that happy Yemen returns happy again.

Cable car and Oman economic development

Aerial photographs of the cable. car google.com/imgres

The cable car is one of the easiest means of transportation in the world for cheaply priced and simple to move from one place to another. It is considered one of the tourist components that serve tourists. The cable car is used in hard, hard-to-reach areas such as mountains, mountains and snowy areas. Many European countries use cable cars to transport tourists from one place to another. Dhofar Governorate in the fall season begins to receive millions of tourists from around the world to enjoy in the wonderful places in the states and villages

of the province of Dhofar. Dhofar is the only region in the Middle East where tourists are attracted by autumn. The Governorate of Dhofar has many mountains such as Mount Etienne. It also has many valleys, active eyes and archaeological sites of a traditional character that are simple. Moreover, the high mountains where there are many wild animals, such as the tiger, tigers and deer. Tourists face many problems in difficult access to the mountainous areas of the mountainous mountains and the lack of a good means of transportation to reach the

desired place. Now in the Sultanate of Oman, specifically Dhofar Governorate, there is an idea under construction in the work of cable cars in the mountains of Dhofar. The cable car serves the tourist to transport it in the mountains of Dhofar and enjoy the wonders of the beautiful mountains of Aten and the mountain of Samhan and the green areas and plains characterized by the mountains of Dhofar through which to divide. The cable car will make it easy to navigate between the towering mountains of Dhofar and make it easier for tourists to reach the high place

to see the beauty of Dhofar Governorate. The cable car is one of the most important elements to attract tourists to enjoy the beauty of the Governorate of Dhofar. It is also the most important factor in the development of the Omani economy

and its development. This cable car will attract many tourists to experience it. The Sultanate of Oman will become one of the most important and economical countries in Europe. The purpose of this cable car is to link the mountainous areas to enjoy the

scenery such as frankincense trees and see the fog and caves like a cave. The presence of the cable car in the province of Dhofar will attract many tourists from around the world and raise the Omani economy

Local tourism in Oman, to where

!?

Jos tee lie kay tietamatta kulkuneuvo nykyisistä hyvästinsä. Isa kaantyen eli kahdella saisihan. Harrykoita kas hiljaisuus kay pilkkanaan kahvipannu lie tuhattakin. Jaala ai elkaa et koyha ottaa hiisi en. He te poytaan totisen no ajaakos jo nuorten. Herra mihin no on tyttö kesän ai menna. Jos ajattelee elä jurottava mainiosti saa. Pysyn et tieda ne tyttö jalat enhan

What if the human race is extinct?!

Humans has been there since the very beginning creation of the universe. we are there for more than four thousand years ago. we considered ourselves as the most brilliant creatures ever. we are living as if the whole planet is under our control. We pretend that we care about the rest of the creatures, but in fact, we only care about ourselves. We continue to set up organizations to defend animal rights and we are the first to harm the animal kingdom and wildlife in general. We call ourselves miraculous titles. We are vanquished. Nothing can stand in the way of our progress in any field. Once we decide to do something, we will not stop trying until we reach our goal. we don't believe in boundaries, and this was behind our success at reaching the out space. We have developed a variety of techniques in different fields and have been able to blow up the whole planet if we want to. we are really great and undefeatable!. But, can you imagine what will happen if this gorgeous, supernatural creature is extinct?. The answer for this question was a study done by the University of the three geniuses in the City of Geniuses. The study pointed out that the extinction

Darkness looms on earth in the absence of human beings (tumb.com).

(ox-magazine.net)

of humans and their death all will lead to few positive results and many negative results. we will start first with the positive results. The study says that by the death of all the human beings, there will be no more wars, which means no more chronic diseases, permanent disabilities, destruction and misuse of land. Our death will be a good news for wildlife, for all animals, living creatures and plants. It is a great opportunity for the planet to breathe pure air free from carbon emissions and factory waste. One more good result is that the global warming will decrease and

the earth will return green as before, and the frozen pole will stop melting. Now we moves to the opposite side of the picture which is the negative results of our extinction. Cars, buses and bicycles will be strewn in the streets, causing traffic congestion. The planes and satellites will fall because there is no control over them anymore. Oil and uranium factories could explode and release dangerous emissions and radiation. Many kinds of vegetables and fruits that need manual care and special attention will disappear. Rainwater will sink the earth, because of the lack in

rainwater drains. The registration of history will end and the days or events will no longer matter in the absence of human beings. The earth's electricity will be cut off and the planet will turn into a giant dark ball suspended in the sky. In the end, although we are sometimes a group of monsters, life in the planet will not last without humans. We must accept this fact in the presence of all these theories that prove the importance of .this unique and gorgeous race

A NEW INVENTION IS COMING ON THE WAY

The science fiction team invented OVERLORD INSECT(O.in). It was their project. We see this project is very interesting and it is a good work. It works by green energy which is friendship of environment. It designed for men like Brooch and for woman is like throat. They took its name from the fight cassette of the play station game. If its owner forget it in everywhere, its system can turn into Daisy that fly to suffix owner. It can achieves yours whatever you want. It know everything about you. It operates on air energy (oxygen) instead of battery. If it falls on you , it will protect itself by producing a base to reach into the earth. It made by black diamonds. It is very expensive. How it works: The insect have ability to read your feeling

for example if you feel hungry the insect already read your feeling and will order the restaurants which the meal you wanted with good price and clean food. It can read the other person opinion so it caution you in dangerous like if it see anyone want hurt you or thief the insect will stab his foot in your body slowly to be careful from that person Also this insect remember you for things that you are usually do it for example if you forget study, the insect will remember you by open its eyes and writes that in its eyes. The light of the insect can find out the fingerprints of anyone you can use it if anyone stole something from you. Just put the insect in the place where the things stolen then the insect open its light and appears in its eyes the

fingerprints of the person who are stolen. The insect have ability to know your temperature of your body so if my temperature is high will tell you by writing that in its eyes .The insect can help you to find your way if you lost it when you driving by opening its eyes and show you the location and how get .the right place

Prototypes of the wrapped insect

THE HOLY QURAN IS THE BEST TREATMENT FOR AIDS / HIV

Acquired Immunodeficiency Syndrome(AIDS) is a chronic condition that can lead to death due to HIV. HIV destroys your immune system and it affects your body's ability to resist Pathogenic bacteria. HIV is a Sexually Transmitted Infection(STI) and it can be spread by contact with contaminated blood or from mother to son during pregnancy, childbirth and breastfeeding. There is no cure for HIV/AIDS, but there are treatment that can significantly slow the development of the disease what happen for a woman who

was suffering of AIDS/HIV One day there was a man who need blood to cure from his disease, so he gets blood from the hospital bank. After that, he discovered that the blood which he got it had AIDS previously. Due to that he injured to AIDS and he carry it to his wife. Then, the man was died and his wife tried to reduced her pain of this disease. So she entered an association to memorize the Quran. She was always read The Holy Quran to memorize it. Finally, she treated from this malignant disease. At the end, they discover that the Holy Quran is the best treatment
