

White House

MUSCAT :There was a man named Ahmed, he is 27 years old and lives in a house of a monster and no one else, every morning he goes to work and performs his duties very seriously and back home late his life was Scattered in the house Because when he returns there is nothing to eat and there is no one who cleans his clothes every day his life was very bad, one day he decided to marry, he contacted his closest friend and told him the subject his friend Mohammed rejoiced at this new and he went looking for the right girl for him, .Ahmed agreed with that girl

In 1989 in mid-October. . Ahmed married a girl named Maryam, she was characterized by high morals and a good face, and after tow years God gave them a beautiful child, Ahmed rejoiced in this child, and provides him with everything he needs, years later, Ahmed changed to worse when he returns home he beats his wife for no reason and his son Adam hears his parents when they quarrel and pray whenever he hears the quarrel, At midnight there is something strange happening at home and No one notices ,him

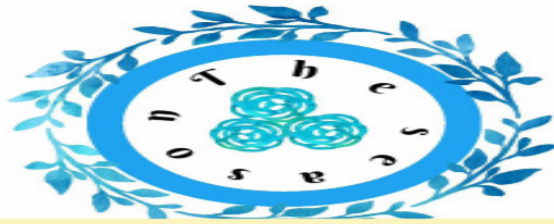

This house turns from white to a very dark color and the shape of the house from the outside is very ugly, the next day, Ahmed got up and went down from the third floor to break, when he come down from the ladder fell all the plates of peace, the ambulance took Ahmed to the hospital, A day later Maryam learned of her husband's death and was in a state of indifference, Maryam and her son lived best, The house light up at midnight .every night

HIGH OIL PRICES

KSA :There are many reasons or factors that affect the rise in oil prices. There are economic, political and natural factors. Economic factors such as increased demand for oil, low exchange rate of the dollar and the actions of the members of the Organization of Petroleum "Exporting Countries "OPEC

and the statements of these countries. Political factors such as disturbances, violence and tension between countries. Natural factors also affect price rises due to seasonal hurricanes. And also because oil is not renewable energy will .end

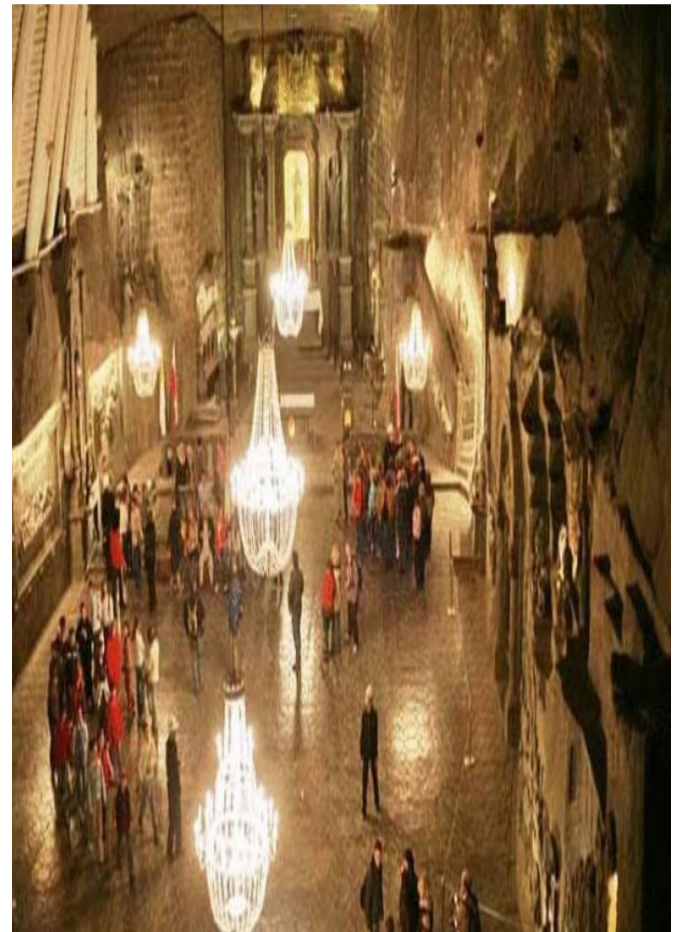

UNDERGROUND

QATAR : The appearance in the Western countries recently city full underground-old about is believed to as the largest in the world

The Ministry of Tourism and Antiquities announced on Saturday the emergence of an important event, a beautiful tourist area under the ground, where three sites appeared under the ground and there are a number of statues

statues and also added that these are very important in the world and this is confirmed that there is life underground and this will Achieves a total change at the level of the globe and is expected to occur in the buildings of cities and the transformation of people's housing to the underground and this means the emergence of a new pattern and change in human life

The Life after 2030

ABU DHABI : The last years, there had been many amazing developments and achievements that dazzled us. In future we will see many achievements that will make

Scientists will make fly cars like airplane . So the environment will be clean because of this development that will happen in 2030. The sky will be full of all kinds of cars and the land will be just for living and business. This development will save a lot of the losses that are happening now . Moreover, each of us will travel wherever we want and there will be continuity between our planet and other planets

In addition, the world will become more prosperous than before. To sum up, Our present era is a prelude to what happens in the future . that's important to avoid some of the problems faced by society. Finally world with the developments idea encourages the community, especially young people to come out of all the creativity and ideas that help in the growth to development of the .world

NEW SELL LAUNCH

DUBAI :All phones are developed ,and added to it good features ,also all kinds of phones or phone companies , competing to develop their phones .Huawei's phone will

be manufactured with 2 front cameras and 3 rear cameras, With the development of programs that exist in the phone.The phone is also filled by solar energy and also by electricity like other phones. This plan will be implemented in 2022 . At the beginning of 2022 will be tested by some countries and then all countries.Following this development of Huawei, all phone companies will compete to upgrade their phones. And will compete with the best-made phone .recently

OUR FUTURE CITY

SOHAR :Today the world is evolving, and there are many developments. Now the development of e-mail is more than tools, such as e-books, phones and other things that have become electronic. Since the development of the world. There is an electronic city in the area-of Electronic Island , with all its equipment, everything in the city is electronic. For example, ordering from an e-restaurant, this restaurant has a mechanic and an interpreter that explains the basics of the restaurant and many things in this e-city. Also

that the shape of the house and tools are operated electronically by touch. There is nothing in this city that works non-e-mail. E-city all types and tools. With the development of the world now and in some areas, but not all electronic gadgets. This city has everything electronic and very nice.and developing and nothing .like this city

INCREASED DEPENDENT OF SOCIAL MEDIA

RIYAD : There are many social media outlets around the world

and many people use them like WhatsApp , YouTube, Twitter, Facebook and many more. Today, our society is very dependent on it because it facilitates communication among people, whether it is near or far, such as the small village. Now the world is developing rapidly and with advanced technologies, perhaps in the future there will be more, easier and faster programs to communicate with the world more easily.The media also provided many opportunities, which may be for the trade of some companies and the beginning of all projects and may support some of the small projects to share information among all network subscribers with the possibilities of direct and free interaction on social .sites
